

# AMRO AHMED

UI/UX DESIGNER

---

## SUMMARY

I am a fourth-year Digital Arts student at the University of the Witwatersrand, specializing in Interactive Media and Game Design. With a solid background in game development and a passion for teaching, I am skilled in coding and interactive design. I am eager to share my knowledge with young learners and help them develop critical thinking and creativity through game design and interactive media. My strong foundation in user experience and problem-solving enables me to create engaging and educational content that inspires students to explore and learn.

---

## EXPERIENCE

### LEAD PROGRAMMER

Mlungisi Foundation 2024-Present

As one of the 2 lead designers, I collaborated with my fellow lead to create interactive and educational games specifically designed for neurodivergent children with intent of simplifying and tailoring the syllabus to them.

### TUTOR

IMPAQ 2022-2024

Conducted one-on-one and group tutoring sessions for students, providing personalized instruction and support in Information Technology, Mathematics and Physics.

### WEB DEVELOPER/DESIGNER

Freelance 2024-Present

As a freelance web designer, I have successfully designed and developed four custom websites for clients across various industries. My responsibilities include website design, front-end development, and ensuring optimal user experience and responsive design across devices.

### SECONDARY PROJECT COORDINATOR

Rasha Foundation 2025-Present

In my role as Secondary Project Coordinator, I focused on the creative and communication aspects of the initiative. I was responsible for designing and maintaining the website. Additionally, I managed the organization's social media platforms.

---
